1. The Examiner has considered Applicant's Response of 10/3/05. Applicant has not provided evidence that Applicant's invention preceeds the effective date of the prior art. The rejection is accordingly maintained.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alt et al. US Pat. No. 6,767,360 (Alt et al.).

Alt et al. discloses the invention substantially as claimed. Alt et al. discloses a niobium alloy comprising:

a zirconium component in an amount of preferably less than 1% (col. 4, lines 45-46); and

remainder niobium.

Alt et al. further discloses wherein the alloy is used as a medical device structure and in particular a stent (col. 4, line 51).

It would have been obvious to one of ordinary skill in the art to select any portion of the range, including the claimed range, from the broader range disclosed in the prior art, because the prior art finds that said composition in the entire disclosed range has a suitable utility. Overlapping ranges have held to be a prima facie case of obviousness, see MPEP 2144.05.

Art Unit: 1742

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
